- Participated in pre-project analysis and technical assessments to validate creation of user-friendly interface.
- Handled special projects designed by senior developer.
- Created frameworks to detect functionality and establish smooth performance.
- Achieved service time and quality targets.

MOBILE APPLICATION DEVELOPER

DIGITAL WORDINGS, CHENNAI

O4/2024 to current

Developed and maintained cross-platform mobile applications using React Native and Flutter.

Trip Scheduler App (React Native):

- Built an app for travel drivers to manage their trip schedules, including features to request new trips and submit leave applications.
- Integrated trip tracking with start and end times, enhancing efficiency and transparency.

Trip Scheduler App (React Native):

- Created an internal app for employees to record client calls and upload both call logs and recordings to a centralized server.
- Ensured secure data handling and seamless user experience.

Food Delivery App Ecosystem (Flutter):

- Customized a purchased Envato-based food delivery solution similar to Swiggy/Zomato.
- Worked on Admin Panel, Restaurant Panel, and three mobile apps (Customer, Restaurant, Driver).
- Deployed successfully on both iOS and Android; apps are live and operational.
